Professional Summary

Senior UI/UX Designer with a Computer Science and QA background, bringing technical feasibility to over 50 completed projects. I bridge the gap between design and development to translate complex customer requirements into practical, high-impact digital solutions.

Experiences

Senior UI/UX Designer

Orangesoft | Jan 2026 - Present

- Direct end-to-end design strategies across a diverse portfolio of client projects, transforming complex client specs into accessible websites.
- Architect and oversee Figma design systems across multiple brands to ensure visual consistency and streamline engineering handoffs.
- Align diverse client stakeholders and dev teams while mentoring junior designers on UX research methods.

UI/UX Designer

Orangesoft | Jun 2024 – Dec 2025

- Designed responsive web and mobile interfaces for multiple clients focusing on user hierarchy and accessibility.
- Executed user research, competitor analysis, and usability testing across various projects to refine low and hi-fi prototypes.
- Handed off production-ready design tokens and edge-case specs directly to development teams.

Web App Developer

Inmage Innovations | 2022 – 2024

- Built front-end features for core Search engineering on 123RF.com, leading Portfolio and MyAccount revamps.
- Developed UI for AI-driven tools, including the AI Image Upscaler.
- Integrated payment and search APIs with UI/UX, Localization, and DevOps teams.

Freelancer

Brand Design & Artist | Since 2012

- Designed logos, packaging, and marketing assets for startups; executed custom digital and traditional art commissions.

Achievements

Certifications

- Google UX Design Professional Certificate | Oct 2023
- Developing on AWS Certificate | Sep 2022

Awards

Freelancers’ Collaboration Application | Jun 2021

- MSU iReX Gold Award
- MSU iReX Industrial Innovative Project
